

Navigating Your Finances God's Way

9-week Bible Study

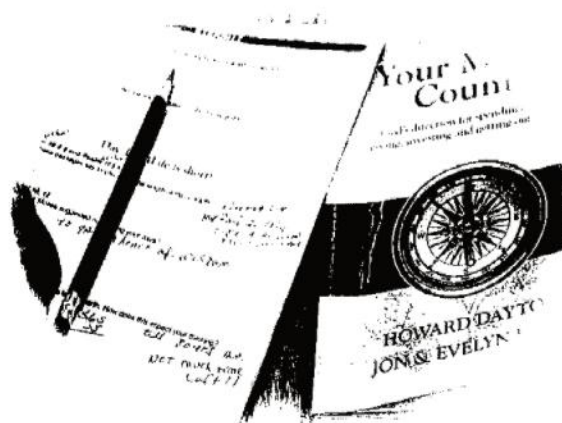

Join us to examine the Biblical principles applying to money and possessions. About 2,500 Bible verses and half the parables deal with these topics.

The lessons change worldly attitudes about money and will provide a direct link between daily life and your faith. God cares for all areas of your life—even how you handle your money.

The participants meet in a small group for two hours, once a week for 9 weeks.

There is individual study, personal financial activities (plans for spending, saving, debt payoff and crisis preparation), small group discussions and prayer.

NOTE: No personal financial information is ever shared.

"At one level this study is about making sensible judgments concerning the use of money and having a conviction about God's presence in our life, even our financial life . . . but at another level, it is about becoming a true missionary, a true disciple of Christ." Fr. Tim Thompson

"If, then you have not been faithful in handling worldly wealth, how can you be trusted with true wealth?"
(Luke 16:11)

"What profit is there for one to gain the whole world and forfeit his life?"
(Mark 8:36)

**It's not about the money,
it's about
the change of your heart!**
